2. High Mileage Service Recommendations KnowYourParts

The key to keeping a vehicle going after reaching a high mileage like 120,000, 180,000 or 250,000 **miles** is maintenance and inspection. If you look at any factory-recommended **service** intervals, after 100,000 **miles** they cease to exist.

3. 90000 Mile Service

For most cars made by major manufacturers, the 90,000 **mile service** is the third major **service**. These regularly scheduled **services** help maintain your vehicle and protect your investment for the long-term. By relying on experienced auto technicians to **service** your vehicle in Kent, you can keep your car running

smoothly for years to come!

4. Car Maintenance What to Expect at Each Service Interval

60,000-Mile Service At 60,000 **miles**, the 30,000-**mile service** should be repeated with one additional replacement, the timing belt. The timing belt runs critical internal engine components (specifically cams and valves) and can cause serious damage to the engine if it breaks, so be careful not to overlook this easy-to-miss item.
